The Pittsburgh Gazette.

THURSDAY, JUNE 7, 1866.

It is expected the Senate will to-day reach a vote on the Constitutional Amendment.

Private advices from Washington convey the assurance that Congress will probably adjourn by the Fourth of July.

During the three weeks ending with Saturday, June 2, the officially declared exports of Gold from New York were rather over than under $25,000,000. During the last month, the premium on Gold has pretty steadily appreciated; beginning at 26½ and ending at 43¼.

A company of Germans have established near New York what they call the "American Lead Pencil Company." They have invested a quarter of a million dollars in the enterprise, and are making as good an article as any imported from Europe. This is the pioneer establishment on this side the Atlantic for pencils of the higher grades.

When did President Johnson turn any Republicans out of office for refusing to abandon their principles and betray their party? Can the *Gazette* name one?—*Philadelphia Daily News.*

For what else did the President make an onslaught upon the Federal office-holders of this city? We asked the *News* that question, some time ago, and it prudently failed to answer.

Mr. McCulloch, Secretary of the Treasury, reports to Congress that he has paid one Myers, a broker, since February, $140,000 for selling $25,000,000 in gold for government. If other matters in the Treasury Department have been managed as this sample, the sooner Mr. Stevens gets younger, and hurries up the articles of impeachment he threatens, the better it will be for the pockets of the tax-payers.

The Board of Health of the City of New York have been endeavoring, for some days past, to procure a proper site for cholera hospitals, in the lower bay. All sorts of obstacles have been put in the way by property owners on Coney and Barren islands, and other localities. The feeling evinced by these people has been that they would rather the pestilence would sweep over the whole land, than have suitable buildings erected for hospitals where alone they can serve any valuable end. The Board have finally bought out some owners on Coney Island.

Armstrong.—On Tuesday, the Republicans of this county nominated—for President Judge, Joseph Buffington; Congress, Thomas Williams; Associate Judge, R. M. Beatty; Assembly, Lieut. F. Meckling; Register and Recorder, P. K. Bowman; Prothonotary, Col. John G. Parr.

The nominations were by popular vote. No opposition was made either to Mr. Buffington or Mr. Williams, but the latter received forty votes the most.

Butler County will doubtless concur in the re-nomination of Mr. Williams. But, in any event, he is the candidate.

Venango.—On Tuesday last the Republicans of this county *unanimously* renominated the Hon. Thomas Hoge for Senator from the twenty-eighth district. Mercer and Warren have yet to act on the subject.

Mr. Hoge has been true to Republican doctrines, and intelligent and upright in serving the interests of his constituents. This evidence of appreciation must be grateful to him.

W. L. Wrenn, one of the Representatives in the last Legislature of the Venango and Warren district, has been re-nominated by the Republicans of Venango county for re-election. This fixes his return to the House.

The State Grand Council of the Union League of Pennsylvania held a secret session yesterday, in this city. Every district in the Commonwealth was fully represented. The business transacted was of a very important nature. Among the resolutions unanimously adopted was the following:

Resolved, That in the opinion of this State Grand Council the cause of liberty, union, justice and humanity requires that the nominees of the Republican Union Party of this State shall be elected to office, and we therefore discountenance any attempt to bring forward third candidates for the several State and County offices, and denounce the same as calculated and intended to bring about the election of the Copperhead candidates of the so-called Democratic party.

GENERAL NEWS.

—Gideon Ewing, residing near Hunterdon, Pa., was accidentally drowned a few days since.

—The Fenians have now a foothold in Canada, but it will prove for many of them a "six foot hole."

—Thomas E. Judge was shot dead in a billiard saloon of Louisville, on Saturday night, by the bar-keeper.

—Mr. Ralph Huntingdon, who died a few days ago, gave the Massachusetts Institute of Technology $30,000.

—The New York *Tribune* receives one thousand Republican newspapers in exchange. Twenty of them support the President.

—A night or two since four hundred juvenile Fenian boys and girls paraded the streets of Louisville with banners and torch-lights.

—Thomas W. Cheyney, U. S. Assessor for the counties of Chester and Delaware, died very suddenly from disease of the heart, a few days since.

—Wm. Haley, a constable in Detroit, got a splinter in the palm of his hand, some days ago, which produced lockjaw, from the effects of which he died.

—Dr. Whewell, Master of Trinity College, Cambridge, left to the college £80,000 or $70,000 to endow a Professorship and a Scholarship in International Law.

—It is stated that the Czar has ordered the release of the father of Komissarow, the young man who saved the Imperial life, he having been transported to Siberia in 1855 for some political offense.

—The mountains in Washington, Mass., are being explored by scientific men for the purpose of ascertaining their mineral wealth. Lead, iron and emery are supposed to abound there in great quantities.

—Gen. Butler, President of the Board of Managers, invites proposals for sites for national military asylums, by donation or sale. The premises must be situate in a loyal State, in a healthy location, and contain not less than two hundred acres of land.

—The iron car of the Adams Express Company, which went through from New York to Boston on Monday night, contained about $7,000,000. Two trusty messengers and a detective accompanied it. Two well-known burglars were known to be on the train, but found no chance for operations.

—Leonard Hüyck, President of the late Merchants' National Bank, who has been held in durance for the past two days, was committed to prison, being unable to procure bail. He is committed upon a warrant sworn out by Controller Clark, charging him as President of said Bank, with wilfully embezzling, abstracting and misappropriating the moneys of said Bank.

Purification.

The change which the system usually undergoes when passing from the summer into the autumn, or autumn to winter, or from winter to the spring and summer months, is usually very trying on the constitution, especially to persons of a delicate and infirm habit or body, and, as a consequence, many persons are troubled with aches and pains in various parts of the body. "Spring fever," or a feeling of lassitude, overcomes the whole body, and there is a listless feeling takes possession of the whole system, that is almost insupportable. There is a torpor of nearly all the secreting organs, and a sluggishness of the animal organism that needs some gentle stimulant to assist the natural functions in the performance of their varied duties. There would be very little spring sickness if persons paid due attention to health, and kept the skin acting and the bowels in a healthy condition. How much health could be saved, as well as suffering, by a timely resort to some such medicine as the valuable herb and root preparation called "Blood Searcher," compounded at the Drug and Chemical Laboratory of Dr. Keyser, 140 Wood street. It is one of the few real remedies that the sick man can take with a certainty that he will be more than compensated for the trifling cost in the immense benefit to health. There is no compound in the whole list of the Pharmacopeias whice contains more health or lifegiving properties.

It is made of roots and plants of rare medical virtue, gathered from nature's vast resources. It contains Dandelion, Burdock, Megeron, Sarsaparilla, Lavender, and other plants and herbs, which have wonderful alterative and tonic properties, so combined as to get their highest medical effects, and no sick man can take them without receiving a benefit. By a few doses the stomach is strengthened, and a tonicity imparted which is really marvelous. Oftentimes have we seen the pale and ashy-faced invalid in a few weeks restored to the bloom and vigor of the highest degree of health. We have seen the whole body covered with sores and ulcers, cured in a short time by the use of this Blood Searcher. We have seen old and stubborn ulcers that would not yield to any other treatment give way to a few bottles of Blood Searcher. We have known piles of twenty years' standing cured by a half dozen bottles. We have known old and long standing cases of rheumatism cured by it. We have seen the worst cases of scrofula, that defied all other treatment, entirely cured by it. Wherever an alterative medicine will do good, this is the remedy of more value than all others. Look out for the name of Dr. Geo. H. Keyser, 140 Wood street, over the top of the bottle, and on the United States stamp on the top, without which it is spurious.

Words of Vital Interest.

Will the thousands who read columns of frivolous verbiage every day devote *five minutes* to the perusal of a few facts which concern them nearly? Our text is *Health*, and we will put our commentary into a nutshell. *Weakness* is indirectly the cause of all sickness; for if nature be strong enough to resist the morbid illdifences which produce illness, of course they are powerless. Seek strength, therefore, invigorate and regulate the system. When the quicksilver ranges from 80 to 96 degrees in the shade, the most athletic are enfeebled and the weak are prostrated. It is at such a time that such an invigorator as HOSTETTER'S STOMACH BITTERS is urgently needed. What are the effects of this rare Vegetable Tonic? Would that all who have known its benefit could condense their experience into this paragraph. They would tell the healthy, to protect their health they must use this great safeguard against the prevailing influences. They would exhort the weak to discard all unmedicated and impurestimmants and cling to this wholesome and unfailing tonic and alterative as the shipwrecked mariner would cling to a raft in a stormy sea. They would, of dyspeptic pangs relieved, of appetite restored, of shattered nerves restrung, of headaches cured, of disordered functions regulated, of hypochondria dispatched, of miasmatic diseased baffled, of fever and ague cured, of liver complaints arrested, of heat, privation and toil defied, of hope reanimated, and cheerfulness restored. Such are the effects of HOSTETTER'S BITTERS

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond, and Market, near Fourth street.

Blood Searcher.

What does it mean? It means a medicine that will permeate all the emunctories and depurating organs of the human body, enabling and stimulating them to eliminate all the vicious and worn-out matter, as well as to strengthen the different functions of life, and imbue them with new energy. Tetter, erysipelas, the various skin diseases, and even cancer, has been cured by it. It is the very prince of medicines to help the languid listlessness of a departing winter into the buoyancy of spring. Prepared at Dr Keyser's, No. 140 Wood street. Price, $1.00 per bottle.

Hats! Hats! Hats!

At wholesale or retail, of every desirable style and color, can be had at Wm Fleming's, No. 129 Wood street. The stock exhibited for sale in this establishment, for quality, beauty and price, cannot be surpassed by any house in the city. Mr. Fleming has for years paid strict attention to the hat business, and has spared neither trouble nor expense to supply the wants of his customers. We recommend our readers to call and see his stock before making a purchase elsewhere.

FENIAN LEADERS ARRESTED AT QUEBEC.

Report of Fenian Movements to the War Department.

Elmyra, N. Y. June 6.—A company of Fenians numbering forty-five, left this city today for Buffalo, to join the Fenian army of invasion. Six or seven hundred men have passed through here within the past two days days from other places, en route to the border.

Boston, June 6.—A special dispatch from St. Albans announces the arrival of Gen Sweeny last evening. He was received by the Fenians with great enthusiasm. It is reported that Gen. Sweeny manifests considerable despondency at the state of affairs. Seizures of arms and ammunition were daily made by the U. S. authorities.

Gov Dillingham has a special officer at St. Albans from the Vermont Legislature, and Colonel's office watching to get an understanding of the situation, and to consider the expediency of calling out the militia.

It is reported that the Fenians had moved forward at any time before last night they might have gone into Canada with slight difficulty.

Hudson, N. Y., June 6.—Sixty Fenians left this city last night on the 11 o'clock train, North, supposed to be bound for the Canadian frontier. The Circle held an enthusiastic meeting here last night.

Rochester, N. Y. June 6.—The Fenians held a meeting here last night, which was largely attended and quite enthusiastic. Donations in cash to the amount of eight hundred dollars were made, besides contributions of arms, accoutrements, stores, &c. A few volunteered to go to the front and fight. During the night quite a number left here, bound for the St. Lawrence region, the most of them carrying arms. The Fenian managers here avow that they purpose to march on Canada as a starts out, with arms rather than take the chances of seizure by the Federal Government if the arms and munitions are shipped. Intelligence has been received of the abandonment of zeal among the Fenians here.

Malone, N. Y., June 6.—Reconnoissances took place from this point last night under command of General M. Murphy, for a distance of about fifteen miles on the other side of the line. About four hundred men took part in the expedition, and they all returned safe this morning. It is said that shots were exchanged between them and some English regulars in the vicinity of Huntington.

General Meade is reported to be at Pottsdam.

Some of Sweeny's staff have this morning returned to this point from St. Albans.

Sweeny held a council of war in the freight room of the Malone depot, yesterday. The conference lasted about an hour.

At the request of the Board of Trustees, General Murphy appointed this morning twenty-five men from his command to act as special constables and patrol the town.

Company A, 1st Regiment of United States artillery arrived from Oddensburg this morning, numbering one hundred men, under the command of Maj. W. Silvery. They were also followed by one hundred fourth United States, under command of Lieutenant Miller.

A special order has been issued by General Murphy relative to the soldiers' furlough.

New York, June 6.—The *Times'* Toronto special says the proclamation of martial law and the suspension of the writ of Habeas Corpus are advocated on account of the operations of the Fenians. Large numbers of the Canadian Fenians, has been put into the citadel at Quebec. Thomas Ryan, O'Donoghue and Mallon, Fenian leaders, from Belleville, James Labby, of Cleveland, Ohio, John Reed, of Buffalo, N. Y.; Joseph Burke, of New York, captured at Fort Erie,—have been put into jail at Toronto.

Washington, June 6.—The following report of the Fenian movement was received to-day by the War Department.

St. Albans Vermont, June 6, 1866.

To Brevet Brig. Gen. Barnes, Headquarters Gen. Grant, Washington City: Major Cole and Lieut. Hall, and East-gate this morning to intercept the Fenians. He could not ascertain that they were commanded by any one, and denied Major Cole's request to see their leaders, on their own book. There was no appearance of any organization, and about one hundred and fifty men, with arms, passed the line. They were very quiet and generally cheerful. A few were disaffected. About twenty had thrown away their arms. They complained of want of subsistence, and were depending on the citizens for food. He could not ascertain that any troops had gone east.

Detroit, June 6.—The Canadian steamer Rescue, arrived from Toronto to-day, was supplied at Windsor with heavy armament and a crew from the British frigate at Quebec. The propellers Iago McMahon, and Chicaffee are also armed. These steamers will probably go to Lake Huron, to watch the expected Chicago Fenian expedition. The Canadian volunteer forces on the western border are daily increasing.

The Secretary of the Treasury has placed revenue cutters subject to the direction of District Attorney Rasch, with their commanders to use their vessels to enforce the neutrality laws in this district. One of the cutters sailed to-day, destination unknown.

Buffalo, June 6.—Last night an enthusiastic Fenian meeting was held here to-night. Addresses were made by Mr. Fitzgerald, of Boston, and others. One thousand dollars was raised. Seventy-five men have been sent forward from here.

Toronto, C. W., June 6.—News from all quarters has been received. Everything is quiet. The excitement is subsiding.

THE VERY LATEST.

A Warrant Issued for the Arrest of President Roberts.

Malone, N. Y., June 6.—About one thousand Fenians are here under Generals Murphy and Heffernan. General Sweeny has left for St. Albans. The crowd is orderly and increased by every train. Murphy has issued a special order to prevent pillaging and disorder.

General Sweeny has gone south.

Montreal, June 6.—The train which has just arrived from the west brought seven car loads of Fenians from Rottsham Junction. This added to the hundred or two already there. From reliable sources we learn that over a thousand more will arrive here within the next forty-four hours.

New York, June 6.—*Midnight.*—There is considerable excitement to-day among the Fenian crowds assembled about Tammany Hall and the Head Centre's headquarters. General Sweeny's order to arrest all prominent Fenians acted unfavorably for the Brotherhood. A warrant has been issued for the arrest of President Roberts, and placed in the hands of Marshal Murray, but Roberts, up to the present hour, is not in custody. He will probably be arrested to-morrow.

Roberts has issued a characteristic address to the Fenians, denouncing the course of England during our late war. He bids his fellow countrymen be of good cheer, and predicts all will yet be well, closing as follows: "No matter, fellow countrymen, how many of us may fall, our cause will triumph as sure as a just God lives, and our children and descendants remain true to the genius and valor for which our race have been always conspicuous."

Tammany Hall was closed to-night, and the Fenians are somewhat discouraged by action of Government. It is reported that one thousand recruits were raised to-day for the Fenian cause. It is believed large numbers have secretly gone north since Monday, and that more will follow.

It is currently reported that a prominent United States official in this city has been removed from office. The reason is not stated.

Arrest of a "Head Center" in Cleveland.

Cleveland, O., June 6.—Thomas Laren, State Treasurer and agent for the sale of Fenian bonds, and O'Neill, Head Centre of the Laran Circle, were arrested, and are now in prison. The United States Marshal has possession of the headquarters and papers. A few rifles and knapsacks were the only munitions found.

Maryland Convention of Unconditional Union Men.

Baltimore, June 6.—The State Convention of the unconditional Union party of Maryland assembled at noon to-day, at the Fourth Street Theatre. There was a large attendance and great enthusiasm.

THE EUROPEAN CRISIS.

Arrival of the Steamer Africa, with Two Days Later News.

A CONGRESS STILL PROJECTED.

War Preparations Continued.

PROGRESS OF THE ATLANTIC CABLE.

The Mace and Goss Prize Fight.

Halifax, June 6.—The steamer Africa, from Liverpool on the 26th, via Queenstown the 27th, arrived this morning with dates two days later.

It is confirmed that the three neutral powers sent identical notes to Berlin, Vienna, Frankfort and Florence, inviting all the powers to a conference, to be held in Paris as early as possible. Warlike preparations meanwhile continue.

The depression in English finance and commerce continues, but there is a rather better feeling.

Latest via Queenstown.—Continental politics remain unchanged. The *Observer* states that no Congress will assemble unless Austria joins. The consent of Austria is not yet given. Reports are again current at Prague that Prussian troops are advancing on the frontier.

The Brussels *Journal* states that Kossuth is acting in concert with the Italian Government, endeavoring to excite a revolution in Hungary.

Large arrivals of specie in Europe was one cause of the better feeling on the London Stock Exchange.

The position of affairs is unchanged. A Congress appears to be assured, but war continues to be prepared for.

A Paris telegram of the 25th says: Identical notes were dispatched yesterday and today by the English, French and Russian Cabinets to Berlin, Vienna, Frankfort and Florence, for the assembly of a Congress to deliberate upon the question of the German Federal Reform—that of the Elbe, the Duchies, and the Austro-Italian difficulty. It is expected that the Congress will assemble on the fifth of June. The assent of the three disputing powers to a Congress is generally regarded as settled, and it is said that Austria will consent to the discussion of the Venetian question, on the basis of territorial compensation. According to one statement the Congress cannot be held before the 10th of June, as the Austrian, Prussian and Italian treaty names May 25th for the commencement of hostilities. Earthworks for the fortifications near Vienna have already commenced.

Arch-duke Albrecht had addressed the order of the day to the Austrian troops under his command.

A proclamation was looked for in Venice ordering the delivering up of all arms, and it is said that Austria will consent to the cession of the Venetian province

THE SOLDIERS SPEAK.

When the President commenced turning out of office men who refused to follow him in the betrayal of the principles, the profession and defence of which made him illustrious, and caused his election to the headship of the Republican party and of the nation, he did not select soldiers to fill the places he summarily vacated. He seemed instinctively to judge that men who gloriously perilled their lives for a cause were not likely to turn their backs upon it for vulgar pay.

As soon as he disclosed his plan of operations there gathered around him a motley crowd; composed of venomous copperheads, still hissing their hate at impartial liberty and its upholders; battered Republicans, whose ambition was "to carry the bag;" political bummers, ready to attach themselves to the host whose chance of victory, for the nonce, they counted brightest; and slimy creatures, who insinuate themselves dexterously into any company where base employments are likely to be offered and shameful pre-eminence secured. The President speedily sickened of his followers.

Then he essayed to dismiss this crew, or, at least, to make them stand deferentially back, and to call about him men whose honorable scars and maimed limbs naturally inspired respect. It was amusing to observe with what abjectness the miserable fellows suppressed their lougings; protested they had no appetites for nourishing feasts of presidential patronage; and were only solicitous their betters should be fed while they obsequiously waited behind their chairs.

On Tuesday last the soldiers of Pennsylvania, through their representatives, duly chosen in their respective counties, assembled in Convention in this city. They adopted a series of resolutions, embodying their wishes and purposes. What did they say? That they demanded the exclusive or joint possession of the civil offices as the reward of their valorous services? Far enough from it. They demanded the recognition and enforcement of the great principles for the defence of which they laid themselves on the altar of the country, and saw tens of thousands of their associates in arms actually perish. They demanded that the rebels who took up murderous weapons against the life of the nation, and all who sympathised with them, and, by word or deed, gave them aid and comfort, should be subjected to such punishment as would vindicate the outraged majesty of the Constitution and Laws. They denounced the treachery of the President in deserting the upholders of the government and consorting with its enemies. And they poured unmeasured scorn and contempt on all who supposed them capable of yielding to mercenary inducements. Their whole attitude and bearing was in keeping with their conduct throughout the war, and gave them an additional claim upon the gratitude and consideration of all loyal men.

The democratic and conservative republican backers of the President are displeased. We supposed they would be. For six years the men whose strong arms saved the Union have not afforded them much delight. There is an inevitable oppugnation between patriots, and those who are not. But, we suggest, that opening batteries of defamation and abuse on the "National Union of the Boys in Blue," because they refused to sell themselves will only damage those who are concerned therein.

SOUTHERN SENTIMENT.

The Rev. Mr. LEWIS, Presiding Elder of the Charleston (S. C.) District of the Methodist Episcopal Church, recently went out to the Barnwell District, and preached to a large audience. He baptized eighty-four persons, and administered the Sacrament of the Lord's Supper. On the following day, a gang of Confederate rioters, headed by W. GILMORE SIMMS, JR., appeared at the house where he was stopping.

"Are you the d—d Yankee preacher who harangued the niggers here yesterday?" quoth Simms. "Cut his throat," says another benevolent white man. "Make mince meat of him," cries another. "Show me your authority for preaching the gospel, you d—d Yankee!" exclaims another admirer of ecclesiastical order and discipline. At this point Mr. Lewis managed to get into a car and to escape to Charleston, being reserved, perhaps, for future martyrdom.

Take another illustration, furnished by the following announcement in one of the Memphis journals:

"A grand ball will be given at the Gayoso House on the 3d of May, for the benefit of the maimed soldiers of the armies of the Confederate States. This noble project deserves every encouragement from our citizens, and will not fail to prove a grand success. Feed the Confederates and let the d—d Union people starve!

The Memphis *Ledger* urges the adoption of the policy of preventing the settlement of Northern men at the South except upon condition of the absolute surrender of freedom of speech. It says:

"As was and as ought to have been expected by every sensible man in the North, the course of the Radicals is producing its appropriate fruit. Their insane warfare upon the Southern people has united the whole South in the policy of not trading with or patronizing in any way Northern radical proscriptionists who have been doing business in our section. In New Orleans and Mobile, a gentleman who has recently visited those cities, informs us the people will not trade with Northern merchants, and that the latter will, from want of patronage, be compelled to go home. This is just and proper. If a man comes to you for your patronage after he has assisted to rob you of your suffrage, your first impulse is to knock him down. But you need not do that; you may and ought to sneer in his face, and treat him generally as an enemy. To a southern gentleman the privilege of suffrage is dearer than the money in his purse. Certainly he would not trade with or recognize one who stole the latter. We have this to say to Northern men in the South: *Your policy should be to keep quiet. You must not expect to force your New England nostrums down the sensitive throats of Southrons. If you wish to live among us and prosper, you must adopt Southern policies, if not Southern ideas.*"

These are certainly not encouraging symptoms. They indicate very plainly that however much the Southern people may have suffered by the prosecution of the war, the leaders of opinion among them have not learned wisdom by the calamities they have witnessed, and of which they have been participants. In view of these expressions it ought not to be thought strange that loyal men, who are anxious for a restoration of the Union, not in name and form only, but in substance and reality, hesitate as to the wisdom of restoring to the rebel leaders the rights they forfeited.

IN Crawford county an earnest canvass for the Congressional nomination is progressing between Mr. D. A. FINNEY and Mr. S. NEWTON PETTIS. Among other spicy questions, the Crawford *Journal*, which is zealous for Mr. PETTIS, asks the Meadville *Republican*, Mr. FINNEY's advocate:

"If a man of 'substantial ability and integrity' can make a fortune in six years acting as State Senator, how much ought a Chambersburg editor, possessing neither of these qualifications, to make as a lobby man?"

Mr. JOHN COVODE dips into this contest, in a letter in behalf of Mr. PETTIS. He gives this item of political information.

"Some weeks, or perhaps months, before the nomination of Governor Curtin, in 1863, A. K. McClure, Esq., editor of the Chambersburg *Repository*, came, with others twice to Washington City to induce President Lincoln to promise the Governor a Foreign mission, in order to take him off the course as a candidate for Governor, alleging, that although he could probably get the nomination, he could be re-elected if nominated, with the men against him in the State who would oppose him. Both attempts failed, when one of the party came to me and said that there was one man who could accomplish the matter with Mr. Lincoln,—and he was a Cabinet Minister—who *did* succeed in obtaining the promise from the President, but the arrangement was afterwards violated, and after the Governor's friends had availed themselves of the benefit of the offer upon the part of the President."

This shows some people were unnecessarily frightened. The storm was not as big as they feared.

PERSONAL.

—Italian journals claim that General Prim has offered his services to Italy, and that he has been replied to affirmatively.

—The venerable Colonel William W. Seaton, formerly of the *National Intelligencer*, is rapidly sinking under the ravages of a cancer.

—It is reported that Mr. August Belmont, of New York, has at his disposal large sums of foreign capital, to be used in dividing the Republican party.

—W. H. Dillon, a Buffalo printer, and a Mrs. Martin, wife of a brother typo, eloped the other day. The injured husband is after them with a "shooting stick."

—George Francis Train is on the political stump in Nebraska, aiding and advocating the claims of J. Sterling Morton, the Democratic candidate for Governor.

—Miss Sallie H. Polk, daughter of the late Right Rev. Leonidas Polk, (General C. S. A.,) was married on the first instant to Captain F. D. Blake, of Charleston, S. C.

—The Viceroy of Egypt is interested in the Suez Canal to the amount of 180,000,000 francs, and his special envoy, Nubar Pasha, is in Paris trying to buy up the French shares.

—Judge Story's son, William W. Story, now in Rome, is one of the most promising of the American sculptors. An English nobleman lately offered him £3,000 for one of his marbles.

—Hon. A. W. Thayer, United States Consul at Trieste, is about to publish, in Berlin, the first volume of his "Life of Beethoven." Mr. Thayer has been engaged on the work for fifteen years.

—Prince Napoleon is "my good cousin" to the Emperor once more. The reconciliation is said to be complete. The Prince will resume the Presidency of the Exposition, and will make no more republican speeches.

—Both Generals Sherman, W. T. and T. W., were by chance together in St. Paul the other day. In the late war W. T. has gained sundry victories, and T. W has lost a leg. There was a banquet to the two generals, at which three hundred persons were present.

—Tennyson is fifty-three years old; has a weak voice and shuffling gait; wears glasses most of the time; generally dresses in gray clothes; has a melancholy, ruminating voice; and wears, when his features are in repose, an expression of classical, habitual sadness.

—It cannot be doubted but that higher political honors are yet in store for General J. K. Moorhead. The great interests that centre at Pittsburgh are indeed fortunate in having a representative combining as does General Moorhead so much influence and industry with ability and integrity.—*Huntingdon Journal.*

—Mr. Spear, at the Tremont House, Boston, announced himself, Monday morning, as "Brigadier Generl Spear, senior commander of the right wing of the Fenian army." He is a West-Pointer, tall, good-looking, fifty years old, has been in the United States service thirty years, and commanded a brigade of cavalry in the late war.

—General William F. Barry, now in command of the United States forces between Buffalo and the Niagara River, is colonel of artillery in the regular army, and brigadier general by brevet. He was the nine chief of artillery of the Army of the Potomac, and occupied the same position in Sherman's army during the famous march.

—A Washington correspondent says: It is not generally known, I believe, that Senator Sumner is and has been for six or eight weeks suffering seriously from a recurrence of the cerebral and nervous troubles caused by the bludgeon of Brooks ten years ago. He is unable to perform continuous and severe mental labor. Powerful anodynes alone bring him sleep. His physicians say that he has overtasked his brain and needs rest.

—A London letter writer says that the readings of the persecuted Mrs. Yelverton have proved a splendid success. She is a delicate looking *blonde*, small and slender, with an attractive countenance and really beautiful eyes. Exceedingly nervous and timid, as a natural consequence, she has not full command of her powers, yet she reads with refined taste and feeling. It is said that she has no less than three hundred invitations to give readings, at $500 per night, and will be able to make, if she fulfills these appointments, $150,000.

—The Emperor Napoleon was out on Sunday last. He came in his carriage-and-four, with out-riders, and accompanied by General Fleury and a couple of foreign ambassadors. I was quite close to him and had a good look at him. He is of much lower stature than I had thought, and inclined to be fleshy, is quite gray, and wears no other beard that a moustache and imperial. He has a large and remarkably fine-shaped head and bright eye. He was very plainly clad in a pepper-and-salt citizen's dress, with silk hat and white silk gloves. He returned, in a good-natured, graceful manner, the frequent salutations of the passers-by.

—The following are descriptions of the present appearance of a number of English authoresses of the present day: "George Eliot" is quite large, finely-shaped, blonde, auburn-haired, smiling eyes, beautiful teeth, and, altogether, a fine woman—but a good deal of her; Miss Braddon is in every way a contrast, with a "commony" look, and a color which looks like rouge, but isn't; Miss Frances Power Cobbe is huge, looking as if she might weigh three hundred and fifty pounds, and often obliged to walk on crutches, and Miss Isa Craig, editor of the *Argosy*, though not pretty, yet is young, and has a pure, child-like expression, an eye full of delicate and refined feeling, and a gentle voice that every one likes to hear.

—The Express Freight coming this way on the Pennsylvania Railroad, on Monday last, broke an axle at Mineral Point, causing a general wreck of the train. No person was injured.

Getting Round a Law.

The "pretty waiter girl" nuisance in New York has taken a new form, showing considerable ingenuity in the parties who are interested in maintaining that system of immorality, and a lack of perception on the part of legislators of all the evasions that may be used to circumvent the law. When this evil first attracted attention it was thought that it depended upon the musical entertainments which were given in the concert saloons, and the legislative solons proceeded to deal with the abuse by the passage of a law forbidding all musical and theatrical performances in places where girls or women were employed as attendants. This was really a benefit to all those establishments, for it released them from the expense of maintaining musicians, dancers, &c., and they were still as crowded as ever, and made large profits from the sale of liquor. The snake was scotched but not killed, and the Legislature then made a new experiment by the passage of a law forbidding the sale of liquors in any place where women were attendants. On Saturday night last all the license of these saloons in the city of New York expired, and it was supposed that there would be an end of them. But much to the astonishment of good people, they were opened next day, Sunday. No more as concert saloons, no more as taverns or restaurants, but as confectioneries upon the temperance plan, selling coffee, ice creams, soda water, sarsaparilla and segars.

THE MURDERER PROBST. Next Friday the sun will for the last time rise upon the murderer Probst. Since his confession, none but those whom he desired have been permitted to see him. During the remainder of his hours on earth he will see none but his confessors and the attendants upon his cell. No marked change has been wrought upon his mind by his spiritual counsellors. He says, in general terms, that he is sorry for his crimes. That his contrition for having massacred the children of the Deering family is genuine, is not doubted; but there is no heartiness in his expression of penitence for the murder of Deering or his wife. To death, however, he is reconciled, though were he liberated this morning, the boundless sum would probably disclose him again in the lager-bier dens that he frequented during the days intervening between the murders and his arrest. No unnecessary deputies or outside curiosity-seekers who desire to induce the Sheriff to evade the law, by admitting them as "especial deputies," can by any finesse or subterfuge, gain admission to the prison inclosure while the doom of the law is being executed.—*Philadelphia Gazette.*

THE Augusta (Ga.) *Chronicle* has a letter from a Mississippi planter which is both pleasing and infectious, as the following extract shows: "We have a fine stand of cotton, which is up. Have nearly one third of our force sick, or pretending to be. Well, I will give you a sample of to-day's annoyance: Heck comes in and says he don't want Loudon, he is entirely worthless; Rosa stays off because it is a wet day—slight sprinkle before breakfast this morning; Jackson is down with a bilious attack; Jim is sick—always sick when there is any hard job like rolling logs on hand; Steve has gone to court; the two Henrys and Dick are first-rate hands; but they are gone, too, as witnesses in a case of quarrel between the two ladies, Emma and Harriet."

NATIONAL MILITARY ASYLUM.

The Managers of the National Asylum for discharged volunteer soldiers, authorized by Act of Congress, approved March 3d, 1865, propose to purchase for sites for Asylums by donation or sale. The premises must be situate in one of the Loyal States, contain at least 200 acres of land, and be in a healthy location and easy of access by railroad or otherwise. It is the purpose of the Managers to erect, in each delay, extensive and permanent buildings for said Asylums, and its establishment will be largely advantageous to any section of railroad in the vicinity of its location.

Plans, specifications and estimates for Asylum buildings, including detached cottages, are also asked for the approval of the Board. Liberal compensation will be given for the successful plan.

Proposals, plans, specifications and estimates in the first named to be in writing, containing plot and description of grounds, and terms and conditions of transfer—must be sent to Major General B. F. BUTLER, at Lowell, Mass., on or before the 30th day of June, 1866.

BENJ. F. BUTLER,
President Board of Managers.
LEWIS B. GUNCKEL, Secretary.

Papers entitled to publish the Laws of the United States are respectfully requested to publish the three (3) weeks prior to the 30th of June, 1866, and send their bill, with copy of notice, as above directed.

United Presbyterian General Assembly.

SIXTH DAY.

The Assembly met at the usual hour, and was called to order by the Moderator, Dr. Kerr. After prayer, the minutes of the preceding session were read and approved.

Rev. N. E. Smith, Commissioner from the Dutch Reformed General Synod, was presented and cordially received by the Moderator, in behalf of the Assembly.

Rev. J. M. McMillen, of the Reformed Presbyterian Church, was presented, and read a communication from Rev. Dr. John McMasters, who was appointed Commissioner from the Reformed Presbyterian Synod, at its session last year, but was unable to be present at the Assembly. Dr. Kerr responded briefly, after which the several matters in the communication were referred to appropriate committees.

The order of the day, being the report of the Committee on the Board of Home Missions, was then called up.

Rev. J. C. Forsythe read the report of the Committee, embracing the following resolutions:

1. That the Assembly record its gratitude to God for the success which has crowned the operations of the Board for the past year.

2. That we express our confidence in the present organization and administration of the Board.

3. That we substitute $800 for the $1,000 appropriated by the Board to support the missionary to Oregon.

4. That the appropriations to Youngstown and Warren, in the Presbytery of Cleveland, be stricken out.

5. That whereas, $800 was appropriated by the Board to the Third Church, Chicago, and $500 to the Church at Eden, Illinois, for the support of Rev. A. B. Coleman, pastor of those congregations, and the same has been omitted from the report, that the report of the Board be amended so as to include them.

6. That as the committee is assured by J. S. Robertson that he will be unable to fill his appointment in Nebraska, he be relieved therefrom, and that the appointment be referred to the Executive Committee.

7. That the fund for the California Mission be continued as a special fund, and that all our congregations be urged to contribute to it liberally at an early day.

8. That we establish a California Building Fund, for the erection of a building in San Francisco, and that $5,000 be asked from the church to contribute $20,000 for that purpose.

9. That John Fleming be appointed Treasurer of the fund contemplated to be raised.

10. That five hundred dollars be appropriated to Parkville, Platt county, Mo., on condition that a church edifice be built. B. L. Baldridge be directed to visit this field, and, if the encouragement is deemed sufficient, report it favorably to the Executive Committee.

11. That the appointment of the apportionments of the Board with the above amendments be approved.

12. That the sum of forty thousand dollars is necessary to carry on the work of the Board for the present year, and that Presbyteries be urged to have their apportionments of this amount paid into the Treasury by the first of April 1867.

13. That Rev. T. Beveridge, B. R. Ewing, David Miller, John Fleming and Dr. G. Mc-Cahan constitute the Executive Committee for the ensuing year.

14. That the Assembly devise some means by which the subject of Home Missions may be brought more directly before the minds of our people, its work explained, and its claims pressed.

15. That the constitution of the Board be so changed as to allow it to meet only eight working days before the meeting of the Assembly.

16. That the General Assembly adopt some measures to secure an act of incorporation for the Board of Home Missions.

The first resolution was adopted. The second was adopted by striking out the word "organization," and then adopted. The third, fourth, fifth and sixth were adopted.

The seventh resolution was amended, on motion of Rev. Mr. Clark, by striking out all from the word "continued" and inserting "discontinued."

The eighth and ninth resolutions were laid on the table. The tenth was adopted as read.

When the eleventh resolution was read an amendment was offered that five hundred dollars be appropriated to a church in Lawrence, Massachusetts, under care of Boston Presbytery, on condition that a minister would be obtained to labor there. Considerable discussion ensued, but the amendment finally prevailed.

A motion was made that that portion of the report of the Board authorizing the missionary in Toronto to form a Presbytery, be amended so as to direct them to attach themselves to the Second Synod of the West, and that the latter organize a Presbytery. Adopted.

A remonstrance from the members of the congregation of Rev. M. M. Gibson, protesting against his appointment to the California Mission was read, and a motion made that his name be stricken from the list of appointments.

Pending the consideration of the motion Rev. T. Y. Scouller moved that all matters relating to the California mission be referred to a special committee. The motion was adopted, and the Moderator appointed the following as said committee: Rev. Scouller, Waddell and Carson, and Elders Martin and Hamill.

A resolution was adopted providing for an evening session.

Assembly adjourned with prayer by Mr. Getty.

AFTERNOON SESSION.

The Assembly met at two o'clock, and was called to order by the Moderator, Dr. Kerr. Rev. Oliver Katy then offered prayer, after which the minutes of the morning session were read and approved.

The Committee on Bills and Overtures reported on the proposed new version of the Psalms.

After calm consideration and thorough investigation the Committee—I ought the old version should not be rejected or altered, unless on grounds minutely considered before hand.

There were some Presbyteries that had shown an apathy in the matter deserving the censure of the Assembly, while others had made propositions for a new version, none of which had been duly considered, and such portions of them engrafted into the report of the Committee as was thought advisable by them. A series of resolutions accompanied the report, as follows.

1. That the twenty-five versions specified in the list as having a majority of three-fourths of the votes cast by the Presbyteries be adopted as amended by the Committee.

2. That the versions which the Assembly shall not adopt at this meeting, except the fourteen specified in the list as rejected, be continued in overture until the meeting of the next General Assembly, together with the amendments adopted by the Committee, and also the second volume of versions.

3. That the Assembly now consider the propriety the ten versions specified in the list as having a majority of two-fourths, together with the amendments adopted by the Committee.

4. That any versions that may be approved by this Assembly shall be considered subject to amendment, until the whole work of preparing a new version is finally completed.

5. That any version finally receiving the sanction of the Church shall be incorporated and published with the present authorized version.

6. That it be distinctly stated by this Assembly that in adopting a portion of the versions in overture, it is not intended to set aside the use of the present authorized version, or any part of it, nor is it intended to require the introduction of them where it would be offensive to the people or any considerable portion of them. It is also recommended to pastors and sessions to do nothing rashly in the matter, whereby the peace of congregations might be disturbed.

7. That the present Committee to prepare a new version be released, in compliance with their request, and that a special Committee be appointed to nominate the members of a new Committee. The Psalms specified as having received a two-third vote are as follows: 26th, 25th, 40th, 42d, 117th, 126th, 136th, 141st, 147th. Those having received a three-fourth vote are 8th, 19th, 20th, 34th, 45d, 61st, 65th, 67th, 84th, 85th, 93d, 95th, 103d, 144th, 121st, 123d, 125th, 130th, 131st, 133d, 138th, 146th, 148th, and 149th.

On motion the report of the Committee was made the order of the day for nine o'clock this morning.

On motion Rev. William Davidson was made the alternate of Dr. Kerr to deliver the opening sermon at the next meeting of the Assembly.

Rev. R. B. Ewing was requested to deliver a sermon on Missions to the next Assembly. The report of the Special Committee, appointed at the morning session, to investigate all matters pertaining to the California Mission, was then brought up.

The committee reported in favor of sending Rev. M. M. Gibson as Missionary to San Francisco. Pending a motion on the question, Rev. W. Waddell stated that in his estimation the reverend gentleman nominated by the committee would not be suitable to the San Francisco Mission, and that he was a theologian and a scholar of rare ability.

Dr. M Laren stated that he was opposed to the separating of the pastor from his flock by any power, either by the Assembly or the Presbyteries. He believed that such a course was in opposition to the fundamental principles of Presbyterianism, and he was likewise opposed to the passage of the resolution.

Rev. J. G. Carson believed that Rev. Gibson was just the man for the San Francisco Mission, and while he did not wish to separate Rev. Gibson from his flock, he felt it was the duty of the Assembly to adopt the resolution, and leave the expensibility of going and staying with the gentleman himself.

Rev. Scouller opposed the sending of Rev. Gibson to San Francisco, believing the mission there not to have been a success.

A delegate moved that the name of Rev. J. G. Armstrong be substituted for that of Rev. Gibson.

Rev. Dr. McAnistry thought that they might as well separate one pastor from his flock as another.

The names of the Rev. William Davidson and Rev. I. Irwin were also placed in nomination, but were rejected on separate ballots.

A motion was made to make Rev. Gibson the alternate of Dr. Cooper, at present temporarily stationed at San Francisco. Lost.

A motion was made to send Rev. W. A. Robb, of Oregon, to occupy the field until a suitable appointment could be made by the Executive Committee, which was also lost.

The vote on the resolution, as reported by the Special Committee, was then taken and carried by a standing vote.

A motion was made to make Dr. Gibson's appointment unanimous, which was lost.

The report of the Committee on the Book of Church Government and Discipline was called for by the Moderator, it being the regular order of the day. The chairman handed in the report, when a motion was made to strike out the proposed amendments submitted by the Presbyteries, and also a portion of the preamble, which was carried. The remainder of the preamble, with the resolutions reported by the committee, were referred to the Committee on Bills and Overtures.

Western University of Pennsylvania.

The catalogue of this educational institution, located in this city, for the year ending this month, has been placed on our table. The students number two hundred and sixty-six—collegiate, twenty-seven; scientific, fourteen; preparatory classical, eighty-five; preparatory English, one hundred and thirty-one; commercial department, nine.

The Western University of Pennsylvania was chartered and endowed in 1819. "Persons of any religious denomination shall be capable of being elected Trustees; nor shall any person, either as Principal, Professor or pupil, be refused admittance for his conscientious persuasion in matters of religion." Until the disastrous fire of 1845, it occupied a field of great usefulness, having graduated many who have filled high and honorable positions in the different professions and pursuits of life. By this fire its building, apparatus, library and cabinet were destroyed. In 1849 another substantial edifice met a similar fate. The Faculty were then dismissed, and instruction wholly suspended, until the present large and commodious edifice was erected in 1858, when it was reorganized, and the course of study greatly enlarged. Since that time it has been constantly advancing in the number of students, and in popular favor, and now annually sends forth thoroughly educated graduates from its walls.

The managers of the Allegheny Observatory have voted to transfer to the University the property of the Observatory, consisting of ten acres of valuable land, a large new dwelling-house, and an observatory edifice, together with a fine telescope, having a 14-inch object glass, being the third instrument of the kind in the country. In the sole condition of this noble benefaction, is the raising of thirty thousand dollars to endow the chair of Astronomy. So far as a portion of this sum has been already subscribed, it is contemplated to transfer the professorship, and the consequent transfer of the property, within a short time, matters of record only.

A large proportion of the students now in attendance are under military organization, and most of them in uniform. They have daily practice under an experienced and competent instructor. The University is supplied with necessary military equipments.

For gymnastic exercises, a large room has been assigned, fitted up with approved appliances for physical training, and with a view to enlargement in this direction, a handsome lot has been purchased, on which it is proposed to erect a building devoted exclusively to this object.

OUR EARLY TELEGRAMS.

THE FENIANS.

Gen. Meade Concentrating Troops to Enforce Neutrality Laws—Fenian Reconnoissance—Financial Panic in Montreal—Bank Deposits Removed—Capture of Fenian Stores—Rebel General Magruder Commands a Fenian Brigade.

MALONE, N. Y., May 6, 1:30 A. M.—Gen. Sweeny and Col. Meehan, Chief of the Engineer staff, left for St. Albans. It is reported Gen. Spear is about to cross to-night on the Mississiquoi frontier with two thousand five hundred men and two Generals.

There are eleven hundred Fenians in town, and eight hundred regulars belonging to the Fourth United States Infantry. The Regulars and Fenians are fraternizing, and everything is quiet in the neighborhood.

A guard of U. S. troops have been placed upon the station at Pottsdam Junction, to preserve order.

Gen. Meade is concentrating troops at Ogdensburg, expecting a fight there.

Gen. Meade informed me this morning that he would enforce the neutrality laws, providing that there were enough troops sent to him.

A Fenian reconnoissance will be sent out to-night by General Murphy in the direction of Fort Covington, and it is possible that a fight may take place. They are willing for a fight, and are determined to fight whether they have artillery or not. General Lynchman will command the scouting party. The weather is terrible.

NEW YORK, June 6.—Specials report a monetary panic at Montreal. The run on the Saving Bank has placed gold at two hundred per cent. premium.

General Mitchell, Commander-in-Chief, has gone to St. Johns.

St. Armand, Canada, is said to have been evacuated by the inhapitants and volunteers. It is garrisoned only by British regulars.

The bank deposits at Stanbridge have been taken to the interior.

Eight thousand rounds of ammunition passed through St. Albans yesterday, in possession of the Fenians.

Eleven hundred Fenians, fully armed, passed through Sheldon, Vermont, yesterday, with baggage wagons. Adjutant General Washburn has been stationed at St. Albans by the Governor of Vermont, and will act under the orders of the Governor.

Generals Sweeney and Spear held a consultation at St. Albans yesterday afternoon. The result of the conference is said to be that the Fenian prospects are brightening and they mean to fight. Provisions, arms, ammunition, equipments and men are now on the way, and an early advance is contemplated. General Sweeney would remain until to-day.

One special says the Fenians near St. Albans have artillery, and are the main body of the Fenian army.

General Meade, at Ogdensburg, has received information that 1,000 Fenians commenced a movement on Covington. Very much chagrined on Canada, and directed an officer to follow them and avoid a breach of neutrality, if possible. His information places the total Fenian force at 2,500, and with one battery of artillery. Though he has but 1,000 troops to guard a thousand miles of frontier, he does not anticipate serious trouble.

The value of Fenian munitions taken at Richville is estimated at $200,000, composed of Spencer rifles, carbines, knapsacks, ammunition accoutrements.

Lieutenant Colonel of the First United States Artillery, arrived at Ogdensburg and takes command of the United States forces.

Ogdensburg arsenal is nearly filled with captured Fenian arms.

General Lynch, commanding the Fenians in Buffalo district, has ordered a concentration of his forces at Hard and Buffalo.

A Detroit telegram says: Scores of suspicious strangers are pouring into Canada, while there are fully two thousand Fenians lounging about this city. The Fenian leaders on the western frontier is certainly near at hand. Canadian and American authorities are on the alert—the former with eight hundred men and five companies of regulars, and the latter with three companies of regulars.

The revenue cutters Johnson and Sherman are armed with six guns.

The Fenians assert that Sweeney will not attack in the East till an expedition is ready to strike in the West.

Quite a few Fenians stole into Canada to-day, and are supposed to be telegraph and railroad destructionists. Some were arrested and jailed at Sarnia.

A friend of the Fenians are all enthusiastic for Gen. Sweeney, and large numbers have enlisted.

BUFFALO, June 6.—The *Express* publishes the names of fifty-nine prisoners captured at Fort Erie, who are now in jail at Brantford, Canada West.

At the Fenian meeting, held here last night, Mr. Fitzgerald, a Fenian Senator, spoke of the late movement against Fort Erie, and said it was made by order of General Sweeney, to draw the men of Gen. Spear away and the enemy from its stronghold, and it succeeded far better than was expected. It was one of the great strategic movements that is swept with success against the British, and to-day the promised that they would hear the result of that strategic movement.

Dispatches has been received in the city to-day, and it is said that a meeting held at Cincinnati three thousand dollars was collected to aid in the work, and also that a brigade under command of the rebel general Magruder was being organized, ready, and would march in less than forty-eight hours for the frontier.

Gen. Sweeney was on the frontier to-night, and before many hours they might expect to hear of his having done something.

A statement published in the Montreal papers to-day says that some fifteen hundred Fenians left the city last evening on trains bound east ward. About five hundred left at six P. M., and eight hundred at seven P. M. The latter mentioned force went off under the command of Captain Donahue, who had returned during the evening with the expedition of the night before, which proved unsteady, having made a bootless excursion.

It is all a humbug about Balavin being a point of rendezvous of the Fenians. The report was probably circulated as a blind. At present there are some three hundred and fifty regulars stationed at Fort Porter, in addition to various guards on duty at points in the immediate vicinity.

BUFFALO, June 6.—The Fenian officers, numbering fifteen, that had been held on board the Michigan, were brought out on a writ of habeas corpus before Judge Hall this forenoon, and were remanded to the custody of the United States Marshal. This was done, and they were taken before United States Commissioner Parker. The charge was read to them for violating the neutrality laws, to which they plead not guilty, and then went with their counsel before the United States Marshal, and taken to the city jail. Their case will be called up to-morrow before the United States Commissioners, and they will then be released on giving bail in sufficient sums, with good security, to answer at some future day the indictments under the neutrality laws. The privates are released on their own recognizances.

PORTLAND, June 6.—A special dispatch from Montreal to the *Press* states on the authority of the Montreal *Herald* that Col. Lowry, of the 47th British regulars, learning that some of the Fenian prisoners on board the United States gunboat Michigan had escaped, sent word that if any more were permitted to escape, he would fire upon her.

Investigation into the Merchants' Bank Affairs—Startling Statements and Charges at Memphis—Two Hundred Crimes Committed Within Three Days.

NEW YORK, June 6.—A Washington special to the morning papers says: Investigations into the Merchants' National Bank affairs show that checks were swapped for a few days, and the most audacious expedients resorted to of robbing Peter to pay Paul carried on here for months, right under the eyes of the Government.

The Investigating Committee at Memphis filed to-day two hundred distinct crimes perpetrated within three days, many of them by police and other city authorities, embracing murder, rapes, arson, burglaries, highway robberies, mainly by the police, who are all on the streets in open day, and no man has been arrested.

Suffering in Mississippi and Louisiana—Famine in the South Predicted.

CINCINNATI, June 6.—The *Gazette's* Memphis special gives a gloomy account of affairs in Mississippi and Louisiana from destruction by floods, and wanton destruction, and predicts that there will be famine in the South before another season. Planters neglected planting grain, hoping for an immense yield of cotton and high prices. In consequence they are out of money and have no provisions. Merchants will give no more credit, though mortgages are offered on coming crops at low figures. The consequence must be that plantations will be abandoned, unless money and supplies are obtained from the North.

Trial of Davis—The President Expresses Confidence in a Virginia Jury.

NEW YORK, June 6.—The *Tribune's* Richmond dispatch says: The President has expressed confidence in a jury of Virginia gentlemen, even for the trial of Jeff. Davis. The President has also expressed his disbelief in the charge of assassination brought against Davis, and also that of killing prisoners.

Shot by a Burglar.

CINCINNATI, June 6.—Captain Menter, of the celebrated Menter's Band, was mortally wounded by a pistol ball fired by a burglar, who entered his house at Newport, Kentucky, this forenoon, for the purpose of robbery. Menter's son afterwards shot the burglar, fatally wounding him.

FINANCE AND TRADE.

WEDNESDAY, June 6, 1866.

Gold reacted a little in New York to-day, being quoted at 144@144¼, against 144@144¾ on Tuesday. In the event of the next steamer's advices being more favorable financially, the demand for sight exchange will doubtless fall off, and then, as a matter of course, gold will still further decline. Government bonds are weak, and especially is this the case in regard to 7-30's, as holders seem anxious to realize, and invest their money in something else. The New York quotations to-day were as follows: 1881's, 102½@5-20's, (old) 102; ditto, (new) 102½; 10-40's, 95¾; 7-30's, 102¼@102½. Cleveland & Pittsburgh Railroad, 89½; Pittsburgh & Fort Wayne, 97½; Bennehoff Run, (oil) 12¼; Pithole Creek, 2½; United States, 4½.

There is a continued fair demand for money, and while the market is working closer, yet, there is no actual stringency, and we hear of no great complaint from parties who are really entitled to accommodations at the leading discount houses. In our local stock market there are no new characteristics worthy of special notice. There is still considerable inquiry for Exchange Bank stock, and we hear of sales at 65 to 66. The capital of this bank is to be increased to two millions, and the surplus fund divided among the shareholders.

Columbus oil stock is in fair request at 18 to 18½, but there is not much offering at these figures. Insurance stocks dull and neglected.

A letter received here by the last European steamer from a prominent official at Frankfort-on-the-Maine, says that large quantities of Five Twenties may be expected in June, owing to a general apprehension of war on the Continent. Persons who purchased the bonds as a permanent investment are now anxious to realize, and are flooding banking houses in the principal cities of Germany with them. He estimates that seventy-five millions worth of the bonds will be returned to America within the next thirty days.

Let it be remembered, that after the 1st proximo, the notes of State banks paid out by any of the banks will be required to pay a tax of ten per cent, as enacted in section 26 of the amendments to the internal revenue laws, approved March 3, 1865. The following is the language of the act:

"And be it further enacted, That every National Banking Association, State Bank or State Banking Association, shall pay a tax of ten per cent on the amount of notes of any State Bank or State Banking Association paid out by them after the 1st of July, 1866."

Appearances would seem to indicate (says an exchange) that we are about to be severely punished for the folly which has characterized our dealings with foreigners for the last eighteen months. Some three hundred millions of dollars of bonds of the government have been placed in the hands of foreign holders, and instead of getting gold for them we have taken the products of English and French looms, which have been sold in competition with the goods of our own manufacturers, and now, when the money market grows tight on the other side of the water, these bonds are thrown back on us, and the coin is demanded and received in their stead. How far we can stand this drain is a subject which must claim our attention for the next few weeks.

—W. Thomas McElrath, formerly of the New York *Tribune* communicates to the New York *Times* an article on the subject of funding the National debt. The pith of the whole article is presented in the following paragraphs:

"If Mr. McCullough attempts to float the consolidated debt at a very low rate of interest, he can only accomplish this purpose by speculating on a depreciated currency. This will necessarily perpetuate high prices. The country is not in favor of high prices caused by the use of depreciated money values. Public opinion seems to settle upon a return of specie payments sometime during the year 1867. Whatever rate of interest may be resolved upon for the consolidated debt, Congress and the Secretary of the Treasury must keep in view the fact that the country demands a speedy resumption of specie payments, if economy be consistent with five per cent interest, let that be the rate; if not, let the rate be higher.

"If it be desired to have our debt permanently held at home, and our own people receive annually the $100,000,000 in gold which we would otherwise have to send to Europe, six per cent more certainly secures this result than any lower rate. Seven per cent Treasury or State securities might tempt many to part with their five per cent Governments, who would not disturb their investments if they were receiving six per cent."

New York Finance and Trade.

NEW YORK, June 6.—Money is very easy and the demand is readily supported at 5@6 per cent. on call. Governments and miscellaneous securities are collateral. The gold market was firmer to-day, the closing and the last price was 144¾. The market for exchange is is very fair at 110 for sixty days. The Government securities were firm this afternoon and rather better on the 5-20s. The following were the closing prices. Coupons, 1881, 109¾; 5-20 coupons, 1025; 10-40s, 96; 7-30s, 102¼@102½.

At the last board the railway list was steady. The market for petroleum and mining shares was very dull. Petroleum stock—Pit Hole, 2; Bennehoff, 12.50; Petroleum Consolidated, 8½; Maple Shade, 1.75. Mining stocks—Consolidated Gregory, 10.90; Quartz Hill, 4.25; Smith & Parmlee, 9½.

The *Commercial's* money article says: The Stock market is quiet but firm. The speculative interest is confined to New York Central, Erie, Reading, and North Western. The latter stock is being manipulated by a strong bull clique. At the Board the price rose 2¼ on the common stock, closing at 48¾ on the preferred, closing at 64½; New York Central firmer under the purchases of the bull clique. Erie, 73¼ per cent. was paid on the borrowed stock. The stock is very largely over-sold, but it is supposed that the party most largely short has covered a large portion of his contracts. The miscellaneous list continues dull. Government securities are quiet but steady; Five Twenties are a fraction better under the foreign news. Sterling bills on London, 109¼@109½. Gold after the Board 102¾, was bid. Private dispatches report Five-Twenties, at the close of Saturday, at 103; Erie, 72¾; Illinois Central, 96¾; and also state that the bull clique had covered. This intelligence is accepted here as indicating that affairs had touched the lowest point of depression, and that a steady recovery may be anticipated hereforward.

The effect of the news has been unfavorable to the bulls in gold. Soon after the opening of the gold room to-day, prices began to fall, but fell under the Africa's intelligence to 144. The total amount of specie shipments from here and Boston to-day was $3,675,000. There is rather heavy borrowing for account of the street, but the supply seeking borrowers is large, and call loans are made chiefly at five per cents, with exceptions at 6 per cent. Discounts continue unchanged. Commercial paper is regarded as a good investment at 6@7 per cent, and is taken at those rates freely in preference to lending on call at low rates. Foreign exchange is nominal. The indications are uncertain as to the demand for sight bills for the next steamer, but those for there appears to be more inquiry for 60 days' bills.

The following were the transactions at the 4 o'clock board: Spruce Hill, 4; Mariposa, 24½; Cumberland, 16; New York Central, 86¾; Erie, 62¾; Reading, 103¾; Michigan Southern, 79¾; Illinois Central, 118½; Chicago and Northwestern, preferred, 64; Cleveland and Pittsburgh, 84. Gold closed at 144¾.

New York Produce Market.

NEW YORK, June 6.—Cotton unchanged, at 38 @39c for middling. Flour less active, and common and medium grades 25@50c lower; sales of 7,700 for extra state, $9.40@10.80 for extra round hoop, and $10.00@10.40 for trade brands, closing quiet. Whisky firm, at $2.27 for wood. Wheat dull and heavy; common, white, good and choice are scarce and firm at $2.90 for good new No. 2 Milwaukee, $2.10@2.20 for No. 1 do, $2.10@2.25 for winter red western and choice to fancy white Milwaukie on private terms. Rye more active and firmer. Corn heavy and a moderate business doing. The export demand is materially restricted by the difficulty which experience in selling exchange, 72@73c for unsound new mixed western, 84@86c for sound do, 88c for new choice do, 86c for handsome white western, and 87c for old mixed western, in store. Oats 2@3c better, at 56@57c for new western—the latter for Wisconsin. Coffee steady. Sugar less active; fair to good refining at 11¾@12c. Molasses dull. Petroleum dull, at 26@28½c for crude, and 41@42c for refined in bond. Pork opened heavy, but closed more firmly, at $27.37½@27.50 for new mess, closing cash or regular, and $25.25@25.50 for old do, and $24.25@24.50 for prime; also 1,250 bbls new mess for June, July and August, sellers and buyers option, at $26.75@27.00, closing steady, at $26.50@ 27.00 for new plain mess, and $21.50@24.50 for new extra mess. Beef Hams unchanged, at $18.50@19.50. Cut Meats steady, at 12¾@13¾c for pickled hams, 13¾@14c for smoked hams, 9@9½c for Cumberland cut, and 10@10½c for short ribbed. Lard quiet, at 19@19½c. Butter dull, at 25@35c for Ohio, and 29@42c for State. Cheese quiet, at 13@20c.

Dry Goods Market.

NEW YORK, June 6.—The market to-day is steady; heavy woolens in active demand; choice styles of fashionable goods are scarce. Black silks are in quite active demand. Hosiery and skirt goods have fallen off. Brown Sheetings.—Pacific, 36 inches, 25c; Massachusetts, 36 inches, 22½; Atlanta, 36 inches, 25c; Amoskeag, A, 36 inches, 25c; Appleton, A, 36 inches, 25c; Atlantic, 36 inches, 25c; Augusta, 36 inches, 24c; Bartlett, 36 inches, 24c; Bates, 36 inches, 21c; Dwight, A, 36 inches, 22c; Howard, 36 inches, 21c; Indian Head, 36 inches, 24c; Lacona, 36 inches, 23c; Mulford, 36 inches, 21½c; Nashua, A, 36 inches, 25c; Salmon Falls, 36 inches, 24c; Stark, 36 inches, 23c. Sheeting and Shirting, bleached.—Allendale, 39 inches, 22c; Amoskeag, 45 inches, 36c; do, 36 inches, 30c; do, 30 inches, 25c; Bartlett's, 36 inches, 36c; Blackstone, 36 inches, 30c; Bay Mills, 36 inches, 30c; Hillsdale, 36 inches, 32½c; Home, 45 inches, 40c; Lonsdale, 36 inches, 32c; Manville, 36 inches, 24c; Masonville, 36 inches, 32c; New York Mills, 36 inches, 45c. Prints unchanged. Balmoral Skirts.—Cheilsea, $.90; Windermere, $.85; Adriatic, $.81; Washington, $.82.

Detroit Butter Market.

DETROIT, June 4.—The market is in large supply and heavy. For best, from first hands, 24c is the most offered, and some buyers will not go beyond 22c. A very large increase in the production of now in progress of good quality, and buyers are inclined to hold off. The farmers, being well off, will, to a considerable extent, lay down their butter, instead of accepting extreme low prices. The New York market tends very strongly downward, with heavy supplies.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, June 6, 1866.

The produce markets continue quiet but steady, with a fair demand for all of the leading articles of trade, but so far as prices are concerned, there is no essential change worthy of special notice.

GROCERIES.—Coffee is firm, and common to strictly prime Rio is quoted at 25 to 30. Sugars firm but unchanged, at 12½ to 14½ for Cuba, and 13½ to 15 for Porto Rico. Crushed Sugar is selling at 17½; "A" Coffee at 16½; and "B" Coffee at 16½. Porto Rico Molasses firm at 75 to 87½ for common to choice. Rangoon Rice is held at 11.

GRAIN—Wheat is firm and in good demand with sales of Northwestern and Club at $2.30 to $2.35. Oats quiet and in plenty for sale, but unchanged at 55 to 57, in elevator, and 60 to 65 for small lots from store. Corn is a little dull; prime shelled may be quoted at 80 on track, and 85 to 90 from store. Rye is still quoted at $1 for prime. Sale of 100 bushels Spring Barley at 90c. Buckwheat is selling at $2.25@2.50 per bush.

FLOUR—Is firm, with a continued fair local demand but prices remain unchanged. Sale of 250 bbls at $11 for spring, and $12.5 for Winter Wheat. Half Spring and half Winter is selling at $10.50@11. Rye Flour is selling at $6.50@6.75, and firm.

PROVISIONS.—Bacon is steady with regular sales at 14½@14½@ for Shoulders; 17@17½ for Clabed Sides; 21½@22 for Plain Sugar Cured Hams, and 23@23½ for Canvassed do. Lard is quiet and unchanged at 22½@23, and Mess Pork is held at $25.50@26.

POTATOES.—Very dull and drooping. Regular sales from store at $1.20 to $1.25 per bushel, and $5.25@5.50 per bbl, according to quality. Receipts falling off, and the same can be said of the demand.

BUTTER—The market is very dull, the little speculative feeling that prevailed a few days since having subsided, and we are cognizant of fresh Roll having been sold from wagon to-day at 20.

EGGS—Dull, the supply being considerably in excess of the demand. Sales at 22@23—mostly at 22.

CHEESE—New Western Reserve is selling at 19@17, and Hamburg at 18@18.

DRIED FRUIT—Peaches are in good demand; sales of 30 bbls at 20c for quarters, and 23 for halves. No good Apples in market; common may be quoted at 13@13½.

HAY—Is steady with a continued fair demand, and we can report regular sales at scales at $25@30 per ton.

SEEDS—Prime Timothy are in demand, and sell readily at $2 per bushel. Common dull and neglected.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, June 6, 1866.

CRUDE—The transactions in Crude were light to-day as compared with yesterday, and while the market appeared a little dull and weak in sympathy with the New York quotable change—14 to 19½, bbls returned, and 19 to 19½ packages included. Sale of 149 bbls at 14; 70 at 19½; 40 at 14; and 520 at 19½, packages included. The receipts are still falling off again in consequence of the low stage of water, which is again restricting navigation, and aside from that in the hands of speculators, the amount of oil offering on the market, is not as large as generally supposed, although the supply is fully equal to the demand. The advices from the oil region by mail are encouraging, showing an advance in gold to the contrary notwithstanding.

REFINED—There was apparently less inquiry for bonded oil to-day than yesterday, the eastern markets being reported dull and nominal, but as there is but very little oil offering, refiners seem to make any further concessions in order to effect sales. We can report sales of 1000 bbls, in two lots of 500 each, at 42 cts, for immediate delivery, and seller 10. It is reported that there was a sale of 1000 bbls standard white at 42 cents, but we cannot vouch for the correctness of the rumor. In free oil there is next to nothing doing, the demand being restricted entirely to supplying the wants of the local trade.

ARRIVALS.—Some of the arrivals noted below reached here yesterday, but we did not get them until to-day. The receipts would no doubt have been much larger, but for the heavy rains which would compel floating boats to tie up.

Chicago Market.

CHICAGO, June 6.—Flour steady. Wheat dull and declined 1@1½c; sales at $1.55@1.60½ for No. 3 spring; $1.65@1.66 for No. 2 do, closing active, at 50@51c for No. 1, and 47@48c for No. 2. Oats steady, at 31½@33½c for No. 1 and 29@29½c for No. 2. Provisions dull. Freights firm. Receipts—6,000 bbls flour, 1,000 bu wheat; 22,000 bu corn; 71,000 bu oats. Shipments—500 bbls flour; 23,000 bu wheat; 69,000 bu corn.

Detroit Barley Market.

DETROIT, June 4.—The market has materially advanced. Sales of about 10,000 bush at $2.40 per 100 lbs, delivered. Purchases to-day were mostly on account of Ohio buyers, the winter crop in that quarter having been very seriously damaged. These sales have gathered out the stocks, and holders now ask $2.60 per 100 lbs for prime Canadian, or $1.25 per bushel. State is worth $1.40@1.75 per 100 lbs.

Oswego Market.

OSWEGO, June 6.—Flour active and unchanged, at $10.25 for No. 1 Spring; $12 for Red Winter, and $15 for Double Extra. Wheat firm but dull; No. 1 Milwaukee Club, $2.10@2.15, and No. 2 do, $2.00. Corn unchanged; No. 1 Illinois, 74c. Oats quiet but firm.

Philadelphia Market.

PHILADELPHIA, June 6.—Petroleum unchanged. Flour firm for good, and very dull for common. Wheat firm, at $2.50@2.75 for red, and 3.00@3.25 for white. Corn active; sales of 7,000 bush at 90c for yellow. Whisky steady, at $2.25@2.30. Ohio, $2.28.

St. Louis Market.

ST. LOUIS, June 6.—Flour and Wheat, firmer and unchanged. Corn slightly better, at 66@ 68c. Oats, 53@55c. Pork and Bacon in small demand. Lard, 20@22c, in kegs. Whisky $2.24@2.25.

Wilmington Market.

WILMINGTON, June 6.—Crude Turpentine unchanged. Spirits of Turpentine at 50@56c. Rosin quiet, $7@7 for No. 1, and $7@7.75 for Pale. Cotton at 36c for Middlings.

Cincinnati Market.

CINCINNATI, June 6.—Flour in good demand; Trade Brands, $10.50@11.50. Whisky at $2.18 in bond. Mess Pork, $31@31.25. Lard, 22c. Gold, 144@144¾.

Milwaukee Market.

MILWAUKEE, June 6.—Flour firm, at $12.25 for Double Extra. Wheat quiet, at $1.77 for No. 1. Corn dull, at 73@75c for No. 1.

RIVER NEWS.

The river receded about two inches during the twenty-four hours ending last evening, at which time the pier marks indicated full four feet. The weather continues cloudy and warm, and all that could be desired for out door business.

The Nora arrived from Cincinnati on Tuesday evening, with a very good trip, after having put out considerable at way points along the river. The most remarkable thing connected with her up trip was the fact that she did not have to wet her spar. The Rose Hambleton, also, arrived from Cincinnati, with a fair cargo.

The Chieftan and Fayette were due here from Brownsville last night, and will return again this evening at five o'clock. The Forest City arrived and departed for Parkersburg, and the Bayard from the same point is due here this morning.

The Glasgow, we are pleased to learn, succeeded in getting over "Glass House" yesterday, where she had been sticking since Saturday evening, and went on her way rejoicing. She was relieved of about one hundred tons by the New State, before she got off.

Capt. James H. Martella, is having new cylinders put on the Emma No. 3, which it is thought will increase her speed.

The New State left for Cincinnati last evening, with about all the freight she could take on board.

The Camelia, Capt. Lytle, will leave for Cincinnati and Louisville to-day, and passengers and shippers should bear this fact in mind. The Camelia will receipt freight through to Memphis and New Orleans.

The Columbia, Capt. R. J. Porter, J. W. Clarke, clerk, will positively leave for St Louis to-day, and passengers and shippers should bear this in mind. The Rose Hambleton is announced for the same point on Thursday.

The new and commodious Importer, Capt. Ross, has her cargo almost completed, and will be ready to take her departure for St. Louis this afternoon. She has excellent accommodations for passengers, and shippers should hurry down her freight.

The Bayard got in from Parkersburg last evening about seven o'clock—considerable ahead of time.

SAVE THYSELF.

A CURE FOR INTEMPERANCE.

Dr. S. Cutter's Celebrated Stomach Bitters.

The greatest Nervine ever discovered. The addition, within the last few years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery, the Bitters acting directly upon the nerves of the English public, celebrated as a Tonic and Alterative, in diseases of the Stomach and of the Bowels, and the nervous affections of the Head and Blood. As a nervine is always the choice of the stomach, to all persons addicted to the use of stimulants and narcotics, such as ardent spirits, malt liquors, opium, morphia, arsenic, tobacco, &c., as it removes the morbid appetite, or craving of the stomach for stimulating drinks, and all nervous diseases, it has no equal as a Nervine.

Ten years use of the imported English Bitters in St. Bartholomew's Hospital, St. Mary's Hospital, and Middlesex other public institutions, as a restorative, as a cure for intemperance, and gained for it the approval of the attending surgeons in all cases of debility, dyspepsia, nervousness, &c., up to 1857, and is prescribed now by many physicians in private practice, for persons confined to the use of stimulants and sedatives. In Parkinson's, St. Vitus' Dance, Epileptic Fits, Nervous Twitchings, and all Nervous diseases, it has no equal. Wholesale and Retail Agent.
